

Questionnaire for applicants of the B.Eng.-programme "Autonomous Vehicle Engineering"

Dear applicant,

You are asked to answer the following questions in order to specify a few more details of your application and to facilitate the evaluation of your application. Please note, the questions are related to the higher education entrance qualification. Please make sure that your information is consistent.

First name: _____ Last name: _____

Application number: _____

1. Characterize the type of school where you received your higher education entrance qualification, i.e. the certificate that offers the possibility to study at a university. What is the focus of the subjects taught at the school in general?
 - a. mathematical and scientific
 - b. economical
 - c. neo-linguistic and musical
 - d. social

2. State the average number of hours per week you had in the last year at school in
 - a. Mathematics _____
 - b. Physics _____
 - c. Computer Science _____
 - d. A foreign Language _____

3. Specify the grading system (must be consistent with grades in your certification)
 - a. scores of the grading system (e.g. A+, A, B, C, D, E, F)

 - b. best grade that can be obtained _____
 - c. grade that must be obtained to pass _____

4. State your final grade in (must be taken out of your certification)
 - a. Mathematics _____
 - b. Physics _____
 - c. Computer Science _____
 - d. A foreign Language _____

5. Which foreign language did you selected in the last year at school?

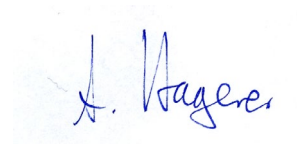

- a. English
- b. German
- c. French
- d. Other _____

6. State your knowledge of German

- a. A1
- b. A2
- c. B1
- d. better than B1, but not native language
- e. native language

7. Describe briefly your personal interests, your interests in autonomous vehicles and refer to extracurricular activities.

Thanks a lot.

Prof. Dr. Andreas Hagerer

Dean

Faculty of Electrical Engineering and Information Technology
